

The calculator% app is an application that is designed to help the user hide photos and videos behind the applications screen.

This application appears to look like a calculator, but upon entering a passcode it opens up a private vault where files are stored securely and cannot be viewed in the iPhone or Androids default camera role.

To get files into your Private Calculator

In the app itself, you can tap the '+' sign to select Wi-Fi transfer, which gives you an IP address to type on your computer's web browser. You can also import files through your camera roll (photo's and videos).

Private Calculator can display and open a number of media types, including photo's (such as .jpeg, .gif, .bmp and .png files), videos (.mp4, .avi, .mkv, .wmv, .flv), music and audiobooks (.mp3), Microsoft Office files (.doc, .xls, .ppt), other assorted documents (.txt, .pdf) and even downloaded websites (.htm).

Challenges

Some of the concerns regarding this app are the fact that your child might potentially be hiding explicit photos, videos or other content.

If your child is under 18 years old it is illegal for them to produce, distribute or possess these types of images.

Child abuse pictures are illegal if they are:

- asked for;
- taken;
- received and kept; or
- sent, posted or passed around

The maximum penalties for child abuse material can be up to 15 years in jail and being placed on the sex offender register. The maximum penalty for an act of indecency is 2 years in jail if the person in the picture is under 16. If the person is over 16, the maximum penalty is 18 months in jail.

What can parents do to keep their kids safe on calculator% app?

- Consider deleting this app
- Remind your kids that everything is public
- Have a dialog with your kids about sexting and sending inappropriate photos to others
- Explain to your kids that they should be careful with sharing their photos with anyone, as they can be forwarded

It is important to have open honest communication with your child regarding sexting.

We always encourage open conversations around privacy and personal safety.

TIK TOK

(Including Musical.ly)

Tik Tok is a social media platform for creating, sharing and discovering short music videos. Every day, millions of people use Tik Tok as an outlet to express themselves through singing, dancing, comedy, and lip-syncing. The app celebrates creativity with videos recorded in 15 seconds or less and shared across the Tik Tok community.

You have the ability to make cool, short videos—songs or short dialogues – that you can share with the world, and people can see them. Think MTV meets SNL meets karaoke meets Dubsmash meets American Idol meets Instagram.

Challenges

- 12+ content in the songs lyrics. Swearing and adult concepts in the provided music.
- Pornography, graphic content, suicide notes.
- Tik Tok users can search for other users to view or follow near their own location/city.
- User generated videos can be viewed and shared onto other social media and messaging apps increasing exposure.
- Bullying in comments.
- Users can publicise their messenger usernames or social media profiles on their Tik Tok profile.
- Many fake user accounts, used to hijack views or set up to bully.
- Hacking of accounts by promotional accounts (Free Tik Tok Crowns) within the apps.
- Not easy to report accounts for being fakes or underage inside the app.
- Many underage accounts with large amounts of followers.
- Easy for users to create multiple accounts and hide them from their parents.
- Fake Tik Tok apps on the app store that charge for download or offer followers.

How Do I Delete My Tik Tok Account?

- Open the Tik Tok app and login.
- Tap on the person icon at the lower right of your screen to open your profile.
- Click on the three dots located in the upper right corner.
- Click on 'Privacy and Settings'.
- Click on 'Manage my Account'.

- Add a phone number if you haven't already.
- A verified phone number is a requirement for removing your Tik Tok account.
- Scroll to the bottom of the page where it says 'Thinking about removing your account?' Tap it.
- Tap 'Send Code'.
- Wait for the code to be sent.
- Enter the 4-digit code within 60 seconds of it being sent to you. Then hit continue.
- Read over the implications of removing your account. Hit continue if you agree with the terms.
- Hit 'Delete Account'. You'll be logged out and your account will be deleted.

How Do I Block a Tik Tok Account?

- Open the Tik Tok app and login.
- Tap on the magnifying glass.
- Search for the user you want to block.
- Tap their name or photo.
- Tap on the ... icon.
- Tap 'Block'.

How Do I Report a Tik Tok Account?

- Open the Tik Tok app and login.
- Tap on the magnifying glass.
- Search for the user you want to block.
- Tap their name or photo.
- Tap on the ... icon.

FORTNITE

Age Rating in
the App Store:
FORTNITE 12+

Fortnite is a video game for PlayStation 4, Xbox One, Windows, Mac and mobile allowing up to 100 users per game onto an island/map to build structures, hunt for weapons and equipment. Players are dropped onto the game map and must compete to be the last one standing. There are three modes of play in Battle Royale: Solo, Duo and Squad.

Challenges

Micro transactions

There are opportunities for players to spend real money on items in the game.

Fortnite encourages a membership upgrade called a Battlepass, as well as in-game currency called V-Bucks to buy bonus items. You can buy things like new looks and new dances. Most platforms allow you to block in-app purchases via parental controls, so be sure to set up yours if you don't want your kids maxing out the credit card. CRF recommends using a pre paid credit card or gift card for in-app purchases.

The game's online chat feature (especially in Battle Royale) can expose younger players to offensive language, mature content and contact from strangers. CRF doesn't recommend games with open chat for kids under 13.

How do I turn off voice chat?

Open the Settings menu in the top right of the Fortnite home page by selecting the three bars, then the cog icon. Choose the audio tab at the top of the screen. From there, you can adjust several audio features, including voice chat. Turn the setting from on to off by tapping the arrows. You will need to take steps to make sure your child isn't exposed to the inappropriate language of other players by keeping them in solo mode or ensuring that they're teaming up with friends.

To report

Users can report other users for harassment, inappropriate language, bullying and hacking. Just click *'Email Us'* and fill out the required fields. After selecting the Product and Game Mode, select Report Player as the Issue Type. This will make sure these reports are directed to the correct team.

If a user wants to delete a *'friend'* within the game they can simply go to the icon on the top right of the screen with the three figures and select the user and click *'unfriend'*. There is no way to block a user in the game. If a user is harassing another user they should follow the appropriate steps above to report them.

Like any online game, Fortnite can be a positive social activity that keeps kids connected to their friends (not to mention a great potential bonding experience if you choose to play with your child). Just be mindful of screen time and monitor that chat. We always encourage open conversations around privacy and personal safety.

App Fact Sheets available from the Carly Ryan Foundation. Please email: info@carlyryanfoundation.com

ROBLOX is a comprehensive game development, publishing, and gameplay platform that allows people of all ages to create games and share them with an audience of game players. ROBLOX is the world's biggest platform for emerging and independent game developers, and they offer the ability to earn real money from their creative efforts.

ROBLOX is open to people of all ages. Each player starts by choosing an avatar and giving it an identity. They can then explore ROBLOX - interacting with others by chatting, playing games, or collaborating on creative projects. Each player is also given their own piece of undeveloped real estate along with a virtual toolbox with which to design and build anything. ROBLOX members can choose to play and create alone or, with the help of personal and customisable avatars, they can choose to be social and engage with others.

Challenges

The purpose of the game is for players to interact and make friends with one another. This is achieved by wandering around the online world to stop and talk with other players. The most dangerous aspect about the game is that it appeals most to young children under the age of 12 and therefore a very easy platform for predators to target them.

The game also allows players to invite each other into their online bedrooms and engage in sexualised behaviour. Whilst there are no 'simulated' sex acts, the insinuation is there. More advanced players are able to create their own online worlds for other players to enter, which often means that pornographic content can be uploaded for children to see.

To report abuse in-game:

- Click on the Menu button, located at the upper left of the screen. This icon looks like three lines stacked on top of each other.
- Click Report tab at the top of the menu.
- Click on the Which Player pull-down menu, and select which player to report.

- Click on the Type of Abuse pull down menu, to select the inappropriate action.
- Additional details can be written in the Short Description box.
- Click Submit to finalise.

How to block a user

To block a Roblox member go to their profile page. Under their character thumbnail, you'll see a 'More' button. Hit the button, and click 'Block user'. This adds the user to your block list, which you can manage at any time within the 'Privacy' tab of the Account Settings page.

Like any online game, Roblox can be a positive social activity that keeps kids connected to their friends (not to mention a great potential bonding experience if you choose to play with your child). Just be mindful of screen time and monitor that chat. We always encourage open conversations around privacy and personal safety.

Discord is an app used widely in the gaming community. It allows users to invite each other to servers, which allow them to talk to each other over text, microphones and send photos to each other. Users find this platform a convenient and easier way to communicate rather than through the game directly.

How does it work?

To sign up to Discord you simply need an email and a username. It takes under five minutes to make an account with Discord. This enables the user to open up invitations and messages from people around the world.

To add somebody on Discord the user must have the other person's username. This can easily be asked through in-game chat.

Challenges

Some of the issues with Discord are that younger children may get invitations from random users thinking it is safe to chat with them. A criminal has the potential to groom the child and get various sources of information such as: credit card details, house address, school, age and much more.

Ensure that you have conversations with your young person about the potential risks involved with using platforms like Discord.

The Carly Ryan Foundation is seeing young users being asked to add people on Discord. This can create the opportunity for criminals to groom, manipulate and coerce young users through conversations that unfold via various gaming platforms.

Discord is a great app to help users communicate with their friends but without the right settings in place it can expose the user to unwanted or inappropriate contact from criminals or by strangers.

Privacy Settings Menu

Click the little down arrow next to the server name and you'll find a drop-down menu window. In addition to being able to adjust notification and server settings, you can adjust privacy settings on a per-server basis as well. Selecting / deselecting this option lets you block DMs (Direct Messages) from users in that server that aren't on your friends list. Normally, sharing a mutual server is all it takes to allow DMs. This option can filter out anyone you don't want to hear from.

Block Button

In the case that you generally like everyone in a server

(except for a few individuals), the DM list has a quick-access menu to a user's profile. In your DM chat, clicking the @ Username will bring up the user's profile, you can click the three dots in the top right to pull up a menu that will let you block the user.

Report a User

To report another user on Discord you will need screen shots of the evidence. Once you have this, you will need to email Discord directly: support@discordapp.com

Friend Requests

For additional control, Discord's settings is adjusting friend request privileges. To find this menu, open up your User Settings and click the Friends tab, here you can set who's allowed to send you a friend request.

Everyone - Selecting Everyone means that anyone who knows your DiscordTag or is in a mutual server with you can send you a request. Having this selected will automatically include both Friends of Friends and Server Members options.

Friends of Friends - Selecting this means that for anyone to add you, they must have at least one mutual friend with you. You can view this in their user profile by clicking the Mutual Friends tab next to the Mutual Servers tab.

Server Members

Selecting server members means users who share a server with you can send you a friend request. Deselecting this means that you can only be added by someone with mutual friends as you.

Note: *Friends of Friends and Server members can be both selected or deselected, allowing you to customize what ways you are willing to receive friend requests. If you only want to add friends you want to choose, you can deselect all three options, and not receive ANY requests.*

App Fact Sheets available from
the Carly Ryan Foundation. Please email:
info@carlyryanfoundation.com

SNAPCHAT

Snapchat is a popular messaging app that lets users exchange pictures and videos (called snaps) designed to disappear after they're viewed.

How does it work?

On Snapchat, users go by a handle.

To add friends, you can upload your contacts, search for people you know or use the 'Quick Add' feature of add friends of friends or strangers easily. You can also automatically add someone by taking a picture of their "Snapcode," a special QR code unique to each user.

To begin a conversation every Snap starts with a photo or video. Snapchatters can layer text, emojis, doodles, and more on top, and choose how long they want the Snap to be displayed (up to 10 seconds). Then, you can send the Snap to one or more friends. Stories is a feature that lets you string Snaps together into one longer narrative that stays available for 24 hours.

Be mindful who are you sharing images with and always remember that everything on the internet is permanent. Make sure you are happy for potentially anyone to see your snaps and share without permission.

Live Stories

Live Stories are compilations of Snaps submitted by Snapchatters from events and locations around the world. Discover allows you to explore channels from established publishers who curate their own content. The Discover screen in Snapchat also includes a selection of the day's Live Stories.

Video and Text Chat

Snapchat also allows for one-on-one chat. Like Snaps, chats are cleared when a recipient leaves the Chat screen. But you always have the option to save a message you'd like to keep.

Lenses, Filters and Stickers

There are many ways to customise the look of your Snaps. Lenses add real-time special effects and sounds to a Snap. Filters offer different design overlays. Geo-filters are a popular way to customise your Snap at specific locations or events around the world. Stickers are colourful images and cartoons that give you additional ways to share content.

Memories

Memories is a private collection of the Snaps and Stories that you choose to save and that don't disappear. You can use Memories to create new Stories and Snaps. You can also choose to store certain Memories in the password-protected "My Eyes Only" section, which is an important feature for parents to be aware of.

Snapcash

Snapchat's payment feature is not for users under 18, but you should know about it so nobody "borrows" your debit card to pay someone back or receive money via Snapchat. Snapchat partnered with Square Inc., to enable users to link their Snapchat and debit card accounts to be able to make peer-to-peer payments for things like paying someone back for lunch.

Spectacles

Spectacles consists of sunglasses with a built-in video camera. The glasses light up to show that you are taking a Snap, this may not be obvious to everyone at first so if your kids are using Spectacles, talk with them about protecting other people's privacy by asking permission before recording them. You can connect the glasses directly to a phone via Bluetooth or WiFi to add videos to Memories.

Challenges

Snapchat is the number one application used for 'sexting' or 'sending nudes' between underage people. Users must be mindful of the social and legal consequences of sending images like these. If the user is under 18 years old it is illegal for them to produce, distribute or possess these types of images.

Child abuse pictures are illegal if they are:

- asked for;
- taken;
- received and kept; or
- sent, posted or passed around

The maximum penalty for sharing child abuse material can be up to 15 years in jail this includes an offenders details placed on the sex offender register.

the *Carly Ryan* foundation, APP FACTS

SNAPCHAT

Age Rating in the App Store:

13+

Privacy

Privacy settings that are available within Snapchat are the ability to restrict who can send a user photos or videos, 'snaps'. This can be enabled by going into the Settings menu, select 'Who can send me snaps', then select 'My friends'. This will ensure only people the user knows will be able to connect with them via the application.

It is important to read the Snapchat privacy policy as it provides information about how the images and videos are stored and used. Users need to be aware that Snapchat has the right to reproduce, modify and republish photos and videos, and save them to the Snapchat servers, particularly in relation to the 'Live Story' feature.

Snap Map

The Map allows Snapchat users to see where their friends are, as long as these friends choose to share their locations with them. Location sharing with friends via the Map is optional and is off by default; however, if you submit a Snap to Our Story, it may appear publicly on the Map in the exact location it was taken. Once you opt-in, whatever audience you're sharing with can see your live location updated, every time you open the Snapchat app, regardless of whether you send them or anyone else a Snap.

Location Sharing Options Include:

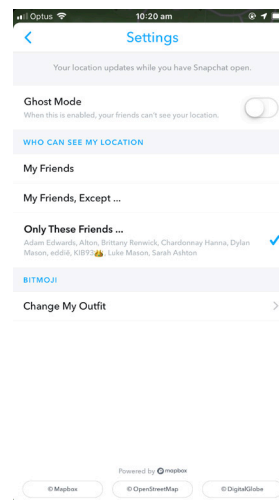

Only Me (Ghost Mode):

Your location won't be visible to anyone else on the Map. You can turn Ghost Mode on and off or opt to set a timer.

Select Friends: Choose specific friends to share your location with. Friends you select aren't notified when you choose them.

My Friends: Your location will be shared with all of your friends this includes friends you add in the future. This option doesn't include people who've added you as a friend, but who you haven't added back.

To edit your location settings, just tap the  button in the top-right corner of the Map screen. You can change who can see your location, or you can hide your location completely by going into Ghost Mode.

How to block a user

- Go to your friends list.
- Hold the name of the offending user.
- Select 'More' on the menu that appears.
- Select 'Block' to stop receiving Snapchats from that person or pick 'Remove Friend' if you want to remove them from your contacts.

How do I report abuse on Snapchat?

To report a Story on the web from your computer, click the button on the video, then click 'Report'.

Like any social media Snapchat can be a positive social activity that keeps kids connected to their friends. Just be mindful of screen time and be aware of who they are connecting with. We always encourage open conversations around privacy and personal safety.

App Fact Sheets available from the Carly Ryan Foundation. Please email: info@carlyryanfoundation.com

INSTAGRAM

Age Rating in
the App Store:

13+

Instagram is a photo and video sharing app that has been an almost exclusively mobile platform. Once the user has either taken/selected a photo or video they can scroll through the editing filters and experiment with the best one for that particular image.

How does it work?

After the user has created an account they can follow other Instagram users and 'like' or 'comment' on their photos and videos. Instagram is owned by Facebook and accounts between the two can be linked to verify the users age and identity.

Instagram accounts are public by default, but can be set to 'private' if the user wishes. If an account is set to public then it opens it up for any other user on Instagram to view. If the account is set to 'private' then only the users that follow the account are able to view it. Setting an account to private allows the user to choose who follows them, which gives the user more control of who is able to view their content.

Instagram is being used by young people to share their lives with their friends. Some challenges around the use of Instagram are young people taking nude selfies and seeking attention and acceptance from strangers, bullying comments and the ability to access inappropriate photos and videos. It is important you know how to block and report inappropriate users on Instagram.

Privacy Settings

Account settings can be found by selecting the three dots on the right hand side of the top of your profile page, scroll down to 'Privacy and security' - 'Account privacy' then switch on the toggle 'Private Account'.

We would recommend turning off the location function for the camera on the users mobile device. By doing this, it ensures that the location of where the photo was taken isn't embedded in the image.

If location services are turned on for the camera then any one can drag and drop a photos geotag information into a Google search and locate exactly where the photo was taken. For most smart devices, this option can be toggled within their 'Settings' menu.

How do I block or report another user on Instagram?

To report a post:

Tap the three dots above the post
Tap Report and follow the on-screen instructions

To report a profile:

Tap the three dots at the top of the profile
Tap Report and follow the on-screen instructions

Like any social media Instagram can be a positive social activity that keeps kids connected to their friends. Just be mindful of screen time and be aware of who they are connecting with. We always encourage open conversations around privacy and personal safety.

App Fact Sheets available from
the Carly Ryan Foundation. Please email:
info@carlyryanfoundation.com

Facebook is a social networking service where millions of people go to interact with others. Facebook has over one billion active users, more than half of them use Facebook on a mobile device. The user can create a personal profile with photos, lists of personal interests, contact information, and other personal information which is shared among their chosen friends.

Facebook users have the ability to interact with a wide range of individuals. Through Facebook's news feed, users have the ability to interact in public conversations with people who are not within their friends list.

How to make your Facebook profile private

Step 1

- 1 Click on the three parallel lines at the bottom right corner of the screen.
- 2 Scroll to the bottom and click the 'Settings & Privacy' tab and click 'Settings'.
- 3 Click on the Timeline and Tagging option. You can control everything with regards to who gets to post and tag on your Timeline and also who can see it. Go through all seven options and customise it for you. Activating Timeline review is also recommended. Once you've done this your Timeline will only be viewable to the people you choose to look at it.

Step 2

Go to the 'Privacy' tab in the settings page. Facebook offers you several different options so you can adjust exactly how private you want to be. Check your privacy settings regularly. Often when Facebook updates the settings may go back to public by default.

Other Privacy Settings

To manage your privacy on Facebook (on a computer), access the privacy settings by clicking on the downward facing arrow in the upper right-hand side of the page and select 'Settings'. In the left hand column, click on 'Privacy'.

To access these settings on a mobile device select the three lines on the bottom right of your screen. Scroll down to 'Settings & Privacy'. Here you can change a number of settings: Restricting who can see the users profile and timeline.

Under the 'Who can see my stuff?' section, users can manage who is able to access their timeline and profile. Next to 'Who can see your future posts?', click on 'Edit' to ensure that 'Friends' is selected.

How can I report a fake profile?

If you have a Facebook account and want to report someone that's pretending to be you or someone you know:

- Go to the profile of the impersonating account.
- Click on the cover photo and select Report.
- Follow the on-screen instructions for impersonation to file a report.

How do I block another user on Facebook?

- Click at the top right of any Facebook page.
- Click Privacy Shortcuts.
- Click 'How do I stop someone from bothering me?'
- Enter the name of the person you want to block and click Block.
- Select the specific person you want to block from the list that appears and click Block again.

App Fact Sheets available from the Carly Ryan Foundation. Please email: info@carlyryanfoundation.com

YouTube is free video sharing website and application that is owned by Google. The platform allows its users to upload, create and watch other users videos. With over 1 billion users it is one of the most popular platforms on the internet.

Anybody can access videos on YouTube, but in order to upload a video the user must create their own YouTube account. If a user sees inappropriate content they can 'flag' or report it if it violates YouTube's community guidelines. Many popular types of videos on YouTube are music videos, 'how to videos' and gaming videos.

YouTube Kids

With over 400 hours of content uploaded to YouTube every minute it is extremely difficult for Google to keep up with the monitoring of inappropriate content.

For users under the age of 13 we recommended using 'YouTube Kids'. YouTube kids is free to download and use. Users can have up to 8 profiles attached to the one account. Each profile can have it's own viewing preferences.

The platform has features like 'watch history', 'block channels' and filters to keep videos more 'child friendly'. Parents can also create timers for video use which can enable time restrictions on their children's screen time.

YouTube Red

YouTube Red is a monthly subscription service that removes advertisements from all videos on the platform. Users can also restrict the videos so that they're more limited with no 'suggested' videos that often occur after a video has been viewed.

More often than not the suggested videos are not suitable for younger people. This platform is especially ideal for teenagers. Videos can also be downloaded and watched at any time without an internet connection. This function is fantastic for family trips in cars and airplanes.

Privacy Settings on YouTube

- Public** Anyone is able to search and view the users videos.
- Private** Only people the user allows can search for and watch their videos.
- Unlisted** Only people that the user sends the link to can view their videos.

'Comments on users videos' is turned on as a default option, however this can be disabled. To do so, these are the steps to follow:

- Sign in to YouTube on a computer.
- Go to Creator Studio > Video Manager.
- Select the box next to any of the videos you want to manage.
- At the top of the screen, click the Actions menu.
- Select More actions > Comments.
- Select or unselect Do not allow comments.

How to make your account private

Click the 'Edit' button, and then choose 'Private' or 'Unlisted' from the 'Privacy Settings' drop-down menu.

If your YouTube account is linked to Google Plus and you set your video to private, you see a field into which you can enter the email addresses or profile names of people with whom you want to share your video.

How do I block another user on YouTube?

- Login to your YouTube account.
- Click on the name of the user you want to block. This will take you to their profile.
- Click 'About' on their profile, then hit the flag button.
- In the drop down menu, you will be given the option to 'Block User'.

How do I report another user on YouTube?

- Login to your YouTube account.
- Click on the name of the user you want to report. This will take you to their profile.
- Click 'About' on their profile, then hit the flag button.
- In the drop down menu, select the option that best suits your issue.

App Fact Sheets available from the Carly Ryan Foundation. Please email: info@carlyryanfoundation.com
